

● *Loricocacia ctenophora*

Southern Ocean

Blachowiak-Samolyk and Angel 2004

Global

Loricoecia ctenophora

Key to drawings

Adult carapaces (A,B females, C,D males)

Details of the first antennae and frontal organs and the endopodite of the left second antennae of females (E and F) and males (G and H)

Details of the armature of the male first antenna setae (I)

Loricoecia ctenophora (Müller, G.W., 1906)

Records: 89

This mesopelagic species is easily confused with *L. loricata*, and it may be more widespread than these records suggest. There are two records from south of the subtropical front and a third just south of the subantarctic front.

	n	Mean mm	s.d.	Range mm
Female	79	2.52	0.093	2.32-2.76
Male	29	2.37	0.056	2.28-2.52
